**Subject: Five hours Online Training Series for the Month of February 2024 from 4:00 pm to 5:00 pm – reg.**

Dear Sir/Madam,

The National Education Policy (NEP) 2020 emphasizes the crucial role of cyber safety education and acknowledges technology's transformative impact on education. It advocates not only for digital literacy but also for the development of adaptability and critical thinking skills, preparing students for emerging technologies such as AI and blockchain. NEP 2020 endorses a holistic and flexible learning approach, supporting technology-enabled education through blended learning, a combination of traditional and online methods. The policy also stresses the use of technology for interactive learning experiences, particularly in subjects like mathematics, using tools like GeoGebra to enhance digital literacy and cater to diverse learning preferences. In essence, NEP 2020 aims to equip teachers and students with the skills necessary for a technology-driven future. To achieve these goals of NEP 2020, CIETR-NCERT organises 5 hours online training series on NEP 2020: Recommendations on ET & ICT. Cyber Safety & Security and the Development of eContent every month.
