Sub: Data Collection for the study of the awareness on Cyber Safety and Security among secondary students (Class IX to XII)

Sir/Madam,

The National Education Policy 2020 (NEP-2020) highlights the need to protect students, especially in the digital space. In today's context, where students are heavily exposed to online learning, digital resources, and social networking have become integral to education.

Recognizing the concerns, CIET-NCERT has undertaken a research to study the awareness of cyber safety and security among secondary school students (IX - XII) and make intervention packages on the basis of the results. In this regard, an awareness scale has been developed. Collecting data from students in grades 9 –12 will help in understanding their awareness level and further planning the implementation strategies for creating awareness among students with the help of school teachers and Head of the Schools.

You are requested to share the following links with the teachers and students of Classes IX to XII and inform them to fill them out the Google form on Cyber Safety and Security Awareness Scale (CSSAS) for Secondary Students.
